Oracle Fusion Middleware

Oracle Business Intelligence

This test drive will present a quick overview of OBIEE 11g and allow users to create reports and dashboards for themselves. The lab uses version 11.1.1.6 of Oracle BI and showcases the following features: adhoc reports, graphs, maps, and color-coding.

Oracle BI Publisher

This test drive covers using Oracle BI Publisher 11g to create simple reports based on Oracle Database. Also, it shows you how to create report layouts using the Layout Editor online, and how to schedule reports.

Excel Analysis of OLAP Data

This test drive allows you to see how easy it is to view and analyze data using Microsoft Excel from data from the Oracle database. Data is stored in cube objects in the Oracle database using the Oracle OLAP option. This data is accessed in Excel via the MDX Provider for Oracle OLAP from Simba Technologies.

Signup Process Overview
